## **Requirement for association with an organization of Kenya/Tanzania by establishing an indenting office for export of GNFC products to Africa**

Gujarat Narmada Valley Fertilizers & Chemicals Limited (GNFC) is a joint sector leading chemicals and fertilizers manufacturer of India. GNFC is promoted by Government of Gujarat State. It is one of the major suppliers of specialty chemicals like Toluene Di- Isocyanate (TDI), Ethyl Acetate etc. in African region.

GNFC is planning to associate with a local organization for establishing an indenting office at Kenya for enhancing physical exports to continent of Africa.

GNFC invites the detailed proposals from the established reputed organizations/agencies established at Kenya/Tanzania, with a proven track record of business in chemical/fertilizers sectors, for associating as an indenting office for products of GNFC.

Interested organizations/agencies may apply giving full details of their experience in related area with all credentials and clear proposal within 10 days of publication of this advertisement, strictly by email to:

**Mr. D.B.Shah - Executive Director, Marketing (Industrial Products)**
